Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant proposes to amend the claims to include the processing done within a single apparatus or a single processing step. However, examiner noted that this did not appear to overcome the previous rejection's prior art. Applicant further suggested showing the analyzing and generating is done in parallel or immediately afterwards. It appears to the examiner at a first review, that the proposed amendments might overcome the rejection. However, further search and/or consideration is required..
